

How accessible is the school environment?

- Our school environment is a single storey building which is fully accessible and includes a number of rooms that can be used for small group interventions. There are adapted bathroom facilities to meet the needs of those with physical difficulties. Resources are provided as required, supported by Occupational Therapy team, e.g. adapted chairs. We also have hoisting facilities.
- The Accessibility Plan for disabled pupils is available on the school website – this is updated with staff and governors on an annual basis.
- We have a strong link with the Ethnic Diversity Service to enable us to support children with English as an Additional Language.
