

Think before you do

1. We only click on the buttons when we know what they do.
2. We are always polite and friendly when we are talking to others on our phone or on the computer.

3. We never give out personal information or passwords.
4. We never do things that make us uncomfortable.
5. We never arrange to meet someone we don't know.

6. If someone asks us to do something rude, or something we don't like, then we tell an adult.
7. If we're not sure about anything then we ask an adult.
